- HTML / CSS
- Javascript
- Python
- NodeJS
- React
- Git / Github
- Problem-Solving
- Organization
- Multitasking
- Working in a team
- Time Management

PROJECTS

Popular Streaming - https://github.com/AnthonyTGarrett/popular_streaming

Developed a site that allows users to search for currently streaming movies and TV series while also creating a watchlist and a list of shows they have already seen. Uses HTML, CSS, TailWind CSS, Express, React, SQLite3.

Easy Inventory - <https://github.com/AnthonyTGarrett/EasyInventory>

Developed a python script that improved inventory count reporting efficiency by 80%. Provides features not available in the current inventory management system in the form of inventory samples and individual partial pallet lists.

Five O' Clock Somewhere - <http://github.com/AnthonyTGarrett/Five-O-Clock-Somewhere>

Developed a site for cocktail lovers that allows the user to search for recipes of their favorite mixed drinks. Uses HTML, CSS, Javascript

EDUCATION

Code: You

- Web Development - Certificate of Completion

Kentucky Community and Technical College System

- Associates of Applied Science - Programming

WORK HISTORY

Ryder

Cycle Counter / Inventory Control Specialist

09/2011 - Present

- Developed process to allow control of the inventory in a Nestle distribution warehouse by a single person.
- Improved inventory reporting efficiency by 80% using python.
